

Collecting highly cited publications

The goal of this survey is to create a collection of highly cited publications from different areas of science. This survey consists of two parts and should take just a few minutes to complete. The first part is aimed at understanding your research area and expertise. In the second part, we only ask you to list two publications from your research area: 1) a paper that represents a seminal work and 2) a paper that represents a survey (review) of the field.

This survey is completely anonymous and personal details will be kept confidential.

Thank you in advance for your participation in this survey. We greatly appreciate your time and effort!

Personal details

Please provide the following information. All details will be kept confidential and anonymous.

1. Which research area do you feel most associated with?

Mark only one oval.

- Clinical Medicine
- Public Health, Health Services and Primary Care
- Applied Health Professions, Dentistry, Nursing and Pharmacy
- Psychology, Psychiatry and Neuroscience
- Biological Sciences
- Agriculture, Veterinary and Food Science
- Earth Systems and Environmental Sciences
- Chemistry
- Physics
- Mathematical Sciences
- Computer Science and Informatics
- Aeronautical, Mechanical, Chemical and Manufacturing Engineering
- Electrical and Electronic Engineering, Metallurgy and Materials
- Civil and Construction Engineering
- General Engineering
- Architecture, Built Environment and Planning
- Geography, Environmental Studies and Archaeology
- Economics and Econometrics
- Business and Management Studies
- Law
- Politics and International Studies
- Social Work and Social Policy
- Sociology
- Anthropology and Development Studies
- Education
- Sport and Exercise Sciences, Leisure and Tourism
- Area Studies
- Modern Languages and Linguistics
- English Language and Literature
- History
- Classics
- Philosophy
- Theology and Religious Studies
- Art and Design: History, Practice and Theory
- Music, Drama, Dance and Performing Arts
- Communication, Cultural and Media Studies, Library and Information Management
- Other
- Prefer not to say

2. If you selected "Other" in the previous step, please provide details

3. Areas of interest

Provide a comma separated list of topics of your interest

4. Years since PhD or equivalent

If you don't have a PhD, please write "0"

5. Number of authored publications

Mark only one oval.

- Less than 5
- 5-15
- 16-25
- 26-50
- 51-100
- More than 100

Examples of highly cited research publications

Please think of two publications from your research discipline (these don't have to be your own publications), one representing a seminal work and one representing a survey of the area, and list these publications below. We would appreciate if you provide a DOI (Digital Object Identifier) or a URL for each of the publications, however title, authors and year of publication are also acceptable. Please only provide publications in English.

6. Seminal paper

Please provide a DOI/URL or a title, a list of authors and a year of publication of a seminal paper from your research area

7. Survey paper

Please provide a DOI/URL or a title, a list of authors and a year of publication of a survey (review) paper from your research area

8. Research area

Please state which specific research area or topic do these two publications relate to

Thank you for your participation!

We very much appreciate your time.

If you know of other people that might be willing to participate in this survey, we would appreciate it if you would share with them a link to the survey.

Again, thank you very much for your help!

9. Comments

If you have any comments on the topic of bibliometrics/research evaluation or about the survey, please use the field below.
